

Minnesota Certified Managed Care Services

CorVel is one of the top providers of Certified Managed Care in the state of Minnesota. Our experienced, local team works with injured workers from the onset of the injury to ensure they receive the most timely and appropriate treatment. With a network of over 30,000 quality providers in CorVel's certified managed care network, our case managers expedite return to work and increase cost savings.

Benefits

- Ability to direct care with limited exceptions
- Early intervention
- Mandatory case management utilization review without plaintiff attorney objection
- Follows MN Treatment Parameters
- Timely and appropriate care for the injured worker
- Certified managed care network
- Mandatory dispute resolution process

Faster Return to Work

Our proactive medical case managers return employees back to work 32 days sooner on average than ODG guidelines.

Why CorVel

CorVel has mastered the art of certified managed care. Our experienced and licensed nurses work diligently to assist the injured worker while updating all parties. With extensive knowledge of the MN treatment parameters and a highly integrated system, unnecessary medical costs will also be reduced.

Cost Savings

\$2,270 avg medical savings per claim

\$2,250 avg legal savings per dispute
